INTRODUCTION

ECC together with its Partner Providers is committed to providing an inclusive learning environment that supports students experiencing a disability or an issue that requires consideration in order to provide an equitable learning environment. This document outlines strategies for accommodating students facing challenges, thereby providing them with the opportunity to demonstrate achievement of learning outcomes. Subject to meeting course-related academic and English entry requirements, ECC and its Partner Providers will offer the same educational opportunities to all enrolled students.

PRINCIPLES FOR ASSESSMENT OF STUDENTS WITH DISABILITIES

The following principles have been derived from applicable Australian legislation:

- A Way With Words: Guidelines for the portrayal of people with a disability – Queensland Government
- Disability Services Commission
- Disability Services Commission– Positive Behaviour Strategy
- Disability Discrimination Act (DDA) 1992
- Disability Standards for Education 2005
- Disability Services Act 1993 - SCHEDULE 1 West Australian Consolidated Acts
- Privacy Act of Australia, 1988
- Reasonable Adjustment (A Practical Guide to Reasonable Adjustment in Assessment) 2008 – Department of Education and Training Western Australia

The following principles should be considered when enacting guidelines for assessment of students:

- ECC and Partner Providers aim to provide an assistive approach upheld by the notions of Diversity, Flexibility, Advocacy, and Access. The goals of the student shall remain central in any efforts of adjustment and modification.

- ECC and Partner Providers will make reasonable effort to ensure that students with a disability are afforded an equitable learning environment and appropriate access to resources, classroom and lab facilities.

- The nature of disability and the degree to which it impacts a person means that each case is assessed individually. Lecturers can use a wide range of possible strategies for assessing the achievement of the learning outcomes. For example: modifying or providing equipment, and modifying assessment duration and delivery modes and approaches.

- The criteria for awarding grades remain fixed for all students. Students with a disability are assessed on what they can convey or demonstrate, they can do.

- Lecturers can provide students with disabilities the opportunity to demonstrate their achievements within the spirit of the assessment parameters as stated in the unit outline – this could be achieved by the use of a variety of assessment instruments.

- In the event that a student selects a subject and is experiencing challenges in meeting all the subject outcomes or objectives because of the impact of a disability, steps will be taken to provide an alternative form of assessment that measures the same learning outcomes. Lecturers are encouraged to use descriptive comments and written feedback to explain any special circumstances pertinent to the grading process for individual students.

- In assessing adjustment to the study program, ECC is entitled to maintain the academic requirements of the course and any requirements essential to that course. This means that ECC must ensure that it only issues an Award to students with appropriate knowledge and skills relating to that Award.
Students with a disability have the right to decline an offer of support and/or alternative assessment strategies to accommodate disabilities. ECC encourages students to inform the college so that lecturers and relevant staff are adequately equipped with knowledge that could ensure appropriate assessment or warrant consideration of alternative strategies.

Disability is defined by the Disability Discrimination Act (DDA) and the Department of Education to include:

- diversity (including auto-immune or immune system disorders, cancer, cardio-vascular disorders, digestive conditions, endocrine system disorders, respiratory system disorders, and urological and reproductive conditions)
- learning, intellectual and autism (including autism, intellectual disability, and specific learning disabilities)
- neurological and brain (including acquired brain injury, brain-related conditions, epilepsy, and neuromuscular conditions)
- physical (including arthritis, cerebral palsy, muscular-skeletal system disorder, paralysis, and skin disorders)
- psychiatric and mental health (including anxiety, depression, eating-related disorders, organic dementia, personality disorder, schizophrenia and psychosis, and substance dependencies)
- sensory and speech (including blindness or vision impairment, deaf/blind or dual sensory, deafness and hearing loss, and speech or voice disorders).

SUPPORTING AND ASSESSING STUDENTS WITH DISABILITIES:

<table>
<thead>
<tr>
<th>Support Systems</th>
<th>Samples</th>

</thead>
<tbody>
<tr>
<td>1. Support and/or Learning and Assessment Plans will be implemented when one of the following methods has been utilized to determine the individual student’s need/s:</td>
<td>Sample Learning and Assessment Plan:</td>
</tr>
<tr>
<td>- New students are invited to submit details of any disability that is likely to impact their academic progress on their application form to study at ECC and/or Partner Provider.</td>
<td>Learning and Assessment Plan template.docx</td>
</tr>
<tr>
<td>- Existing students may approach a ECC or Partner Provider staff members who will refer them to the Course Coordinator ECC or Partner Provider staff may approach a student for whom a Lecturer has submitted a “Student at Risk” form</td>
<td></td>
</tr>
<tr>
<td>2. Students with a disability are encouraged to provide documentary evidence providing:</td>
<td>Sample Professional/Practitioner/Counsellor’s Report:</td>
</tr>
<tr>
<td>- Details of condition (and it’s likely impact on participation and assessment in their course) from a suitably qualified medical practitioner</td>
<td>Health Professionals Report.pdf</td>
</tr>
<tr>
<td>- Details of suggested modifications and strategies that ECC/Partner Provider may be able to engage in order to support the student</td>
<td></td>
</tr>
<tr>
<td>3. In accordance with the Privacy Act of Australia, 1988 and ECC /Partner Provider Privacy/Confidentiality protocols, the Course Coordinator will liaise with lecturers, administrative staff, external organisations and/or Edith Cowan University as required to provide the necessary support to meet the student’s needs.</td>
<td></td>
</tr>
<tr>
<td>4. A detailed list of possible strategies and modifications is listed:</td>
<td>Strategies and Modifications for Students with a Disability or Equity Issue.xlsx</td>
</tr>
<tr>
<td>Examples of adjustments to assessments and an assessment method summary are available on p.29-32 of Reasonable Adjustment: A Guide to working with students with disabilities published by the WA Department of Training and Workforce Development (DTWD):</td>
<td>Examples of Assessment Adjustments.pdf</td>
</tr>
</tbody>
</table>
5. Checklist of adjustments for assessors:

Further guidance from the Course Coordinator or the Deputy Principal is available. They may liaise with external agencies as required and within the parameters of Privacy and Confidentiality.

ADMINISTRATIVE PROCEDURES

The Deputy Principal and the Course Coordinator will assume responsibility for implementation of these guidelines. Students will be advised of the provision of these guidelines on the Enrolment application, at Orientation and in the Student Handbook.

COSTS

PIBT /Partner Provider will take all practical steps to make “reasonable adjustments” in meeting the needs of students with a disability. However, after due consideration of these adjustments, at some point, if PIBT or the Partner Provider deems such actions to reach a level of “unjustifiable hardship”, it may:

- Consult with, and seek the advice of relevant disability sources to overcome the difficulty.
- Discuss the matter with the student to explain any arising issues or unreasonable costs
- Wherever possible, seek to provide alternative options for the student and endeavour to facilitate those options.

Note: Section 10.2 of the Disability Discrimination Act states that is not unlawful for an education provider to fail to comply with a requirement of these Standards if, and to the extent that, compliance would impose unjustifiable hardship on the provider.
